FOR IMMEDIATE RELEASE

One Loving Life Is All There Is

The Great Awakening To Our Common Purpose

WILLIAMSPORT, PA. 2/22/2023 - A timely autobiography of a Baby Boomer who transcended the social engineering of her generation. Following the signs of the times through each decade to illustrate the corrupt agendas contriving to control us, that simultaneously served as a catalyst for our spiritual awakening. Recognizing how our personal experiences are relevant to the transformation of the collective consciousness, it is a call for love, to stand in our sovereignty, and fulfill our Divine destiny for the highest good of us all.

Archetypal of the American culture and counter-culture, it is a journey into the timelines of a Baby Boomer in the 1950s, Flower Child of the 1960s, The Culture of Sex, Drugs, and Rock 'n Roll in the 1970s, Spiritual Sabbatical in the 1980s, Working in Spiritual Communities in the 1990s, Holistic Health Educator in the 2000s, Practical Mystic in the 2010s, and Spiritual Warrior in the 2020s. The retrospect of a conspiracy observer behind the scenes, to the experience of the Divine Orchestration that transcends our illusions, "One Loving Life Is All There Is" brings the hidden darkness to the healing light.

"Why should we be surprised to see the world the ego made is an inversion of the truth? An upside down perception. Can we open our minds with the willingness to question everything we think we believe?"..."As we regain our sovereignty, and withdrawal our consent from the lies and manipulations of social engineering, we will bring about the new paradigm aligned with love." Mary Woods
